HKU Statement on 23 January 2020

A HKU student has been sent to hospital as the University follows the reporting criteria for suspected case of Novel Coronavirus Infection (nCoV) according to the Centre for Health Protection's latest guideline. The student has not been to Wuhan. He has respiratory symptoms with no fever. He has visited a Shenzhen hospital two weeks ago for treatment of other injury. As suggested by CHP, the University has arranged for the student to attend hospital for necessary checking. As a prudent precautionary measure, the University has arranged necessary cleaning on the campus according to the guidelines of CHP.

香港大學證實，按照衞生防護中心關於新型冠狀病毒的最新指引要求，安排一個同學到醫院檢查，以便進行相關檢測。該同學近期並沒有到訪湖北武漢, 有咳嗽但沒有發燒徵狀，兩星期前曾到深圳一間醫院因為其他傷患求診。校方醫療服務處徵詢衞生防護中心後，安排同學送院，以策安全，並隨即按防感染措施在校園內進行清潔。
